Reasons for Allowance

Claims 1, 2-9, and 12 are allowed. These claims are allowed because the feature "combine the first likelihood value applicable to a scaling factor at which said test region represents a certain area of said test image with said second likelihood value applicable to a further scaling factor in which said test region represents a smaller area of said test image." Common to independent claims 1 and 9 is not obvious in the context of the remaining claim. Although Mikolajczyk et al discloses the remaining elements of claims 1 and 9 it does not disclose the above element, and nothing in the art of record suggest that the above feature would be obvious. Therefore since the independent claims contain allowable subject matter the dependent claims do as well.
